

LEAK POINTER ^{SF₆}

This lightweight, cordless unit can detect SF₆ leaks in seven different sensitivity levels with a response rate of one second. Leakage data is clearly presented on an LED display. In addition, an audible alarm alerts the user to the presence of SF₆ leaks. The LeakPointer clears itself quickly, even after detecting large SF₆ leaks.

- Rapid response rate
- Low recovery time
- Detection of leaks of up to 5g per year
- Temperature compensated
