# CHESTER HOIST

## Jib Crane Design Army Type Trolley Hoist

Chester's Model AM provides the ideal combination of light weight and versatility in an economically priced army type manual chain hoist. With capacities from one quarter to five tons, the beam-mounted Model AM is compact and built to last under heavy use in a full range of cargo and material movement applications. With Chester's legendary designed-in strength, reliability and durability, each Model AM hoist is made in America and tested to ANSI B 30.16 specifications. Plus they're available fast through the Chester Quick Shipment Program.

### Model AM Features

- Lightweight, compact
- Metric capacity
- Steel construction with heat treated load bearing components
- Steel gear and handwheel covers for impact resistance and durability
- Alloy steel heat treated load chain
- Forged steel hooks
- 4-to-1 design factor
- Simple assembly and low maintenance
- Tested to 125% of capacity before shipment
- Efficient, durable, replaceable components
- Excellent headroom
- Ball bearing fully machined wheels

### Options

- Chain container
- Drop stops/bumpers
- Zinc plated load and hand chain
- Available for patented track and special beams
- Load limiter
