

### Features:

- **Rugged Construction**
- **Master / Slave or Common Talk Modes**
- **Hands-free Operation**
- **Division I Hazardous Area Approvals**
- **On-off / Volume Control Switch**
- **Push-to-Talk Switch**
- **Compatible with GAI-TRONICS' EZ Page**
- **Power 120 V ac and 12 V dc**
- **Option for Auxiliary Microphone**
- **Option for Auxiliary Footswitch**
- **Option for Remote Mounting of Speaker**

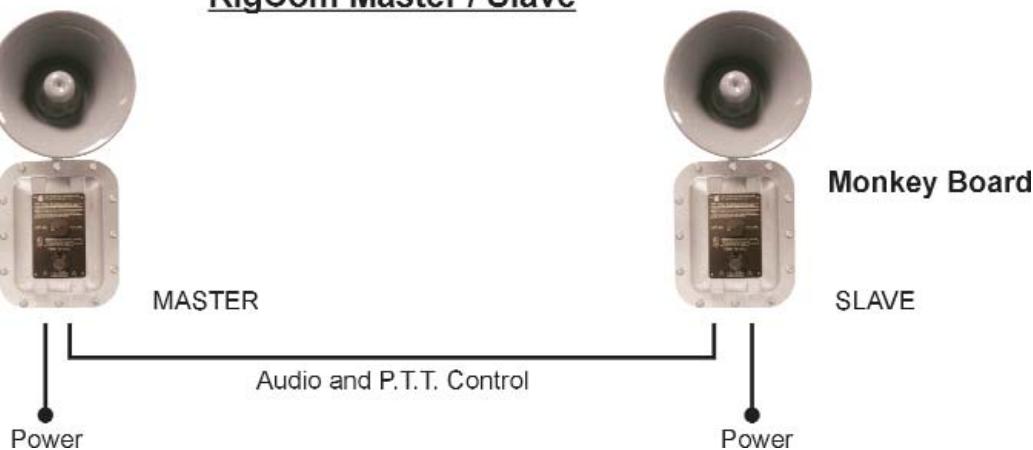

GAI-TRONICS Model 400-001 and 400-002NS RigCom Stations are a common-talk communication system designed for hazardous and harsh environments. The system is simple to use with push-to-talk, release-to-listen operation. The station can also be configured for hands-free operation where the speaker is always in listen mode. The RigCom station consists of an explosion-proof case, which houses the electronics, and an explosion-proof loudspeaker that also functions as the microphone.

Model 400-001 includes an attached speaker and driver unit. Model 400-002NS is a station without the speaker and driver unit. It does have a ½ inch NPT hole to

remotely mount and connect the speaker driver unit to the station. RigCom also has connections for an auxiliary microphone and footswitch option for remote operation from the station itself.

The RigCom is also compatible with GAI-TRONICS® EZ Page. EZ Page is a common-talk communications system designed for a wide variety of rugged applications. EZ Page provides a low cost alternative to the RigCom in non-hazardous applications. EZ Page configurations are identical to RigCom: Master / Slave and Common-Talk. *For additional information please reference publication #990201.*

### RigCom Master / Slave

## Part Numbers

<b>400-001</b>	RigCom Station
<b>400-002NS</b>	RigCom Station (no Speaker)

## Accessories

<b>10438-002</b>	Microphone I.S. Barrier Kit
<b>12801-002</b>	Auxiliary Microphone only
<b>51052-003</b>	Auxiliary Footswitch
<b>60075-001</b>	Audio Cable, 18 AWG, 2 Pair

## Specifications

### AC Power

Voltage .....	120 V ac, 50/60 Hz
Power consumed (at nominal) .....	
Off (mute) .....	6 VA, 1.8 W
Standby .....	7.2 VA, 3.6 W
Maximum Speaker Out .....	30 VA, 27 W

### DC Power

Voltage .....	12 V dc
Power consumed (at nominal) .....	
Off (mute) .....	0.3W
Standby .....	3 W
Maximum Speaker Out .....	20 W

### Amplifier PCBA

Frequency Response .....	300–8 kHz, +/-3 dB
Audio Output.....	8.0 watts
Audio THD Distortion .....	1% maximum, 8-watt output
Hum / Noise .....	1% maximum, 8-watt output
Gain-Listen Mode .....	30 dB
Gain - Talk Mode (speaker as the microphone) .....	42 dB
Gain - Talk Mode (auxiliary microphone) .....	48 dB

### Speaker (Model 400-001 Only)

Rating.....	30 watts maximum
Impedance .....	16 ohms
Frequency Response .....	400–3.5 kHz, +/-6 dB
Sound Pressure Level, 1 Watt @ 1 Meter, Swept Sine Wave .....	104 dB SPL

### Station

Construction / Finish .....	Cast aluminum/Tumblast finish
Mounting .....	Wall or column, four 7/16 -inch mounting feet with slots
Connections .....	Plug-in style terminal blocks
Conduit Entries .....	Bottom - two 3/4-inch NPT Top - one 1/2-inch NPT (Model 400-002NS only) Bottom - two 3/4-inch NPT
Dimensions .....	508.0 x 261.9 x 360.9 mm (20.0 H x 10.31 W x 14.21 D inches)
Shipping Weight .....	
Model 400-001 .....	36.0 lbs.(16.4 Kg)
Model 400-002NS .....	23.0 lbs.(10.5 Kg)

### Environment

Temperature range (operating and storage) .....	-20° C to +60° C (-4° F to +140° F)
---	-------------------------------------

### Approvals

The models below are approved for the following hazardous areas when installed in accordance with Pub.42004-381, Control Drawing # 73214.

#### - Model 400-001 RigCom Station:

NRTL listed (USA) .....	Hazardous locations Class I, Div. 1, Groups C & D
When auxiliary microphone and/or footswitch is used .....	Hazardous locations Class I, Div. 1, Group D

#### - Model 400-002NS RigCom Station:

NRTL listed (USA) .....	Hazardous locations Class I, Div. 1, Groups B, C & D
When auxiliary microphone and/or footswitch is used .....	Hazardous locations Class I, Div. 1, Group D
